

Silen is hiring

Design Engineering Team Lead

The team lead's main responsibilities are:

- creation and formalization of product models for standard and special/modified projects,
- organizing teamwork, incl. the development of work processes and systems,
- product-based data processing in Excel and data management in Odoo (our ERP software),
- preparation and implementation of production specifications and providing technical advice to partners,
- promoting effective cooperation with other departments.

We are waiting for you to apply if

- you are a skilled design engineer with strong technical experience,
- you have experience leading teams,
- you have extensive experience with AD Inventor, SolidWorks or Solid Edge and Excel (including macros),
- You have a good command of Estonian and English, possess excellent communication skills, and, most importantly, have a solution-oriented attitude, just like us!

What awaits you in Silen? An exciting work in a very innovative field, with a very cool team. Silen products are sold in 60 countries, and the company is growing, offering unique opportunities for both professional and personal development. Your contribution will be duly rewarded, with additional benefits to be discussed during the interviews.

Send your application through silen.com „Careers“ page or send your CV to: hr@silen.com
